

April 20, 2020

As Canadians and Muslims our hearts are filled with love and sadness for the people of Nova Scotia and the victims of the massacre that took place on April 18th and 19th.

The horrific act of violence has only acted to bring us closer with our brothers and sisters in humanity.

We at the BCMA remember the support and unity that Canadians showed after the Muslim community suffered attacks in Québec in 2017.

We state emphatically: We stand with the people of Nova Scotia during this difficult time.

All of Canada is with you. Together we will heal and not let this be forgotten. We must work together to ensure that hate is countered with love and that this never happens in Canada again.
